Construction Director

” For over two decades, Gulf Dunes Landscaping has set the benchmark in delivering exceptional landscape projects across the UAE. Our strength lies in consistent, on-time delivery with uncompromised quality a standard our clients trust and expect.

Rooted in experience and driven by innovation, we integrate sustainable design with cutting-edge technologies, focusing on smart irrigation, water management, and long-term landscape resilience.

As one of the leading names in Abu Dhabi’s landscape industry, we remain committed to excellence, continuous growth, and shaping greener, smarter environments for the future. ”

Hamdan Mousa Alagha  
Maintenance Director

“ At Gulf Dunes, we don’t just maintain landscapes we elevate them. Our Maintenance Division is driven by a skilled, multidisciplinary team of horticulturists, irrigation and landscape designers, all working together to deliver smart, sustainable, and tailor-made solutions for every client.

From VIP residences to public parks and recreation areas, our diverse portfolio speaks to the trust placed in us by some of the region most prominent clients. We combine cutting-edge irrigation technology, eco-friendly equipment and industry best practices to maintain landscapes that are as beautiful as they are resilient.

Our approach goes beyond routine upkeep. We offer innovative enhancement solutions from vibrant seasonal planting schemes to complete landscape redesigns and water-saving irrigation retrofits bringing new life and lasting value to every space we touch.

With the expertise, resources and vision to take on projects of any scale, we turn outdoor environments into thriving, functional, and inspiring spaces.

Gulf Dunes delivers cost-effective, environmentally conscious and impactful results.

Gulf Dunes , Because every landscape deserves excellence. ”

Since its inception in 2002, Gulf Dunes Landscaping & Agricultural Services has been at the forefront of landscaping, architecture and urban design in the UAE.

Drawing inspiration from the legacy of the late Sheikh Zayed bin Sultan Al Nahyan to transform the desert into a “green haven”, Gulf Dunes pledged to be a leading force accelerating sustainable development through solutions dedicated to crafting everlasting landscapes that improve human and environmental health within UAE’s communities.

We take pride in being benchmarked as one of the UAE’s most prominent landscape architecture partners.

At the heart of our philosophy, our teams and we take pride in being benchmarked as one of the UAE’s most prominent landscape architecture partners. At the heart of our philosophy, our teams and clients come first. Thus, our talented industry-experts are eager to translate every client’s vision into realities by delivering cutting-edge innovation in Landscaping Design & Construction, Operation & Maintenance, and Support Services.

With a wealth of successfully delivered large scale projects and a proven track record in crafting iconic public spaces in Abu Dhabi, we provide services spanning the complete landscape life cycle across private and public realms.

As an ISO 9001:2008 certified company, we are constantly improving the effectiveness and efficiency of our services. We are committed to adhere to all quality systems as well as health and safety requirements throughout our business operations.

## **Vision**

To be the leading regional landscaping partner, striving to create sustainable value through constructing inspirational outdoor and indoor landscapes across both private and public realms.

## **Mission**

In quest for goal achievements, GDL are committed to cooperative by providing clients, contributing green concept of the environment and all aspects of sustainability through design and construction. Our objective is the satisfaction, desires they fully deserve and the outcome of what they imagined comes to reality.

## JAPANESE GARDEN

Japanese garden design is a refined and timeless landscaping tradition that emphasizes harmony, simplicity, and the natural beauty of the environment. Rooted in centuries of cultural and spiritual practices, these gardens integrate elements such as stones, water features, carefully pruned plants, and architectural accents to create tranquil, contemplative spaces. Key styles include Zen (dry landscape), tea gardens, and strolling gardens, each designed to evoke a sense of peace and connection with nature. Gulf Dunes has presented a serene Japanese Garden masterpiece that seamlessly blends nature, art, and architectural elegance and this reflects its commitment to delivering beauty through inspired landscape design.

Koi ponds are a traditional feature of Japanese Garden. A koi pond adds a touch of nature and calm to any space. With colorful fish, soothing water sounds, and lush surroundings, it's the perfect way to relax and enjoy a little peace right in your own backyard.

## DESIGN AND CONSTRUCTION

Our expert landscape architects and designers draw their inspiration from our design ethos, which is centered around crafting scenery that is ecologically sustainable and human-centric. We champion a design approach that accentuates the inherent aspects of places and their cultural, social, and historical significance while interweaving how people interact with their surroundings. We draw, make models, and incorporate digital transformational tools enabling us to devise sustainable solutions to enhance lives. Design and Construction encompass all elements from:

- Design
- Hard landscape
- Soft landscape
- Irrigation
- Lighting
- Water features & associated electro mechanical works
- Outdoor structures
- Outdoor kitchens

## MOUNTAIN BIKE TRACK

It is a part of Delma island cycle and bike tracks project, Construction of a 47km Mountain bike track using the natural ground soil with stabilizer, directions signages, wooden bridges, and rest areas.

## DMT PARK

The Department of Municipalities and Transport (DMT) is actively working on the creation of a new neighbourhood park in Sector SH3, situated in the Al Shamkhah District of Abu Dhabi Mainland. The park will be designed to reflect a unique character that is tailored to its specific context, site conditions, and location. This approach aligns with DMT's standardized, component-based park development strategy, ensuring that the park integrates seamlessly into its surroundings while meeting the needs of the community. DMT aims to create a park that supports active lifestyles and enhances the overall liveability of Abu Dhabi Mainland and the Abu Dhabi Emirate.

## OPERATION & MAINTENANCE

Our services support all aspects of your exterior maintenance; our experts will apply advanced technology and low cost. We will monitor the health of your landscape and offer ideas on how to enhance it for the long term.

Our maintenance services include:

- Gardening & pruning
- Maintenance of hard & soft landscapes
- Maintenance of irrigation & pumping systems
- Pesticides & disease prevention
